Additional information

I work well in a team with other people to complete successfully all set goals and tasks. I am sociable and capable of integrating into any group of people in any situation. Since my early days in high school I have met various people, such as fellow students, friends of other friends and colleagues, and this gave me a great understanding of how relations between people work and allowed me to build a substantial network of contacts. The experience of Front end developer gave me the skills and confidence to work under the pressure of strict time schedules as well as the ability to anticipate and deal with unexpected problems.

Boyan Zhelyazkov

Sex: Male | Date of birth: 27.12.1989 | Nationality: Bulgarian

Work Experience & Projects

Name of employer ReadyForTest

Dates 01 April 2013 to 01 April 2014

Occupation or position held Developer (Web Developer)

Main activities and responsibilities ReadyForTest is a startup company in which I participate as a BackEnd Developer and marketing advisor. With couple of very experienced friends and colleagues we create ReadyForTest as a hub for QAs all over the world, where they can and all the information needed to did their job best. We wanted to bring everything related to QA process in one place. Only four months since the beginning we have received more than 1000 questions and 300 tools for software testing. My task was to write backend logic of site and project database. ReadyForTest we use Scrum methodology, we have restful services for some parts of our hub.
